Directions:

1. Cut out the base and score at 1 1/2", 2 1/2", 4 1/2", 6 1/2", 8 1/2", 9 1/2". Fold the top pieces on each side "out" and fold the rest of the folds "in".
2. Put together the top pieces (put the fancy edges into the slits) and punch an oval with the Large Oval Punch through both pieces at the same time.
3. To make the box, cut a piece of card stock 8" x 5 3/4". Score the short side at 1 7/8" and 3 7/8". Then rotate and score the long edge at 1 7/8" and 6 1/8"
4. With the long end on top (short ends on the side), cut up on the two score marks; rotate 180 degrees and cut those two. Now going from the outside in, cut out the triangle.

5. Add your adhesive to the remaining triangle and glue your box together (you will put the adhesive on the outside of the triangle and the triangle will get adhered to the inside of the box).
6. Adhere your box to the middle of your Pop 'n Cut's piece. Decorate for your event or gift.

Isn't this so stinken cute!!!!
